Tickets available for Gazers of the Galaxy at Carter's Lake!

Elijay, GA, 9/2/26: At night, the lake's deep water reflects the constellations, and far up above, the infinite cosmos dances. Experience the wonders of the night sky during an unforgettable evening of stargazing at Carters Lake as FIND Outdoors partners with the Atlanta Astronomy Club for a guided astronomy program at Northbank Park's Astronomy Field.

On **Saturday, September 12th,** participants will discover the spectacle of North Georgia's dark skies as expert astronomers interpret and identify the constellations and planets, share stories about the cosmos, and provide opportunities to observe celestial objects through high-powered telescopes. Whether you're an experienced stargazer or simply curious about the universe, this interactive program offers a unique chance to explore the beauty of deep space.

Tickets are $30 for adults, $15 for youth ages 4–15, and free for children ages 3 and under. All proceeds from the event go directly to support FIND Outdoors' non-profit mission, the continued stewardship of Carters Lake, and further educational programs.

This event is from 8:30 PM to ~10:00 PM, and begins with an introduction from our partners at the Atlanta Astronomy Club, who will brief guests on the wonders of the night sky. Guests will then be invited to look through telescopes calibrated to specific points of interest and activity up above.

The Astronomy Field at Northbank Park is located at 1850 Carters Dam Road, Chatsworth, GA. Guests are encouraged to arrive early, bring a folding chair or blanket, and dress for the evening temperatures. Flashlights are welcome, with red-light flashlights preferred to help preserve the area's exceptional dark-sky viewing conditions.

For tickets and additional information, visit www.gofindoutdoors.org.

About FIND Outdoors

FIND Outdoors is a 501(c)(3) outdoor recreation nonprofit that centers forest education and stewardship. FIND Outdoors has been stewarding public lands for over 50 years, with a vision to create a lasting community of appreciation for the outdoors.
